

1977 Citation 500

Serial Number 500-0368 N124NB

A great way to start in the jet market, this Citation 500 has remarkably low hours for its age. With new paint in August 2002 and a mere 320 hours since most recent engine overhaul, this plane is ready to go.

This neutrally decorated plane seats seven with one club seating arrangement. Executive tables, refreshment center, freon air conditioning, and an aft belted flushing toilet make this plane as comfortable as it is economical.

Equipped with Collins Proline Avionics, this plane's flight deck includes Bendix/King KLN90B, BF Goodrich WX950 weather display and Argus/Eventide 5000 moving map.

Aircraft Specifications:

Airframe:

4,586 hours since new

Engines:

Pratt & Whitney (JT15D-1A)

	Left	Right
Hours since overhaul:	320	320
