

1995 Citation Jet

525-0119

With a well acknowledged comfortable and quiet ride, the Citation Jet provides travelers with unsurpassed efficiency and economical benefits. Arriving much more quickly with the same fuel consumption as many turboprops, the CJ is so simple to fly, that it requires only one pilot.

This hangar-kept, RVSM-compliant Citation Jet It has had only two owners, both in the United States.

The blue and gray interior includes executive tables and seating for five. It also contains a belted flushing potty which provides room for one additional passenger.

This well-maintained plane compares well with other planes in its class. Low total time and fresh hot sections make it a great option for any individual or fleet owner.
