

1992 Citation II

Serial Number 550-0698

Brand new paint and interior on this well-equipped, late model Citation II make it a fantastic buy. Act now...it won't be around long.

Its roomy interior comfortably accommodates eight passengers with a center club seating arrangement. A slimline refreshment center, folding executive tables and aft-belted flushing potty in a lavatory setting make traveling in this plane quite appealing.

The avionics of this Citation II include a 3-tube EFIS, a top-of-the-line Honeywell FMZ-2000 flight management system and a Primus II radio package, which is rare in this type of aircraft.

Take advantage of bonus depreciation benefits with engine overhauls due in less than 200 hours.
