

1997 Citation Bravo

Serial Number 550-0824

This Cessna Service Center-maintained Bravo is in excellent condition with 950 hours total time on the airframe and both engines.

The plane has been hangar-kept, and the white overall paint and light and dark blue striping look fantastic. It exceeds current FAA standards with 2004-compliant RVSM Certification.

The neutral light beige interior looks new. A deluxe refreshment center, folding executive table and aft-belted flushing potty make traveling in this plane quite comfortable.

This totally decked out cockpit includes a Bendix King GNS-XLS flight management system and TCAS-I. It also contains Mark VII EGPWS and a Fairchild cockpit voice recorder.
