

# 2001 Cessna CJ1

**Serial Number 525-0460**

Enjoy a quiet and smooth ride in this luxurious 2001 CJ1. Elaborate blue and red ribbon paint accents frame this sleek Cessna best-seller. Its runway performance lets you get in and out of airports as short as 3,280 feet at maximum takeoff weight. With just 690 hours total time on the airframe and both engines, this plane is a great buy.

New paint and interior were completed in June 2003 by Jet Aviation. The plane comfortably seats 7 in chairs that have full swivel and recline capabilities. Indirect and dropped aisle lighting provide a conducive working or relaxing environment.

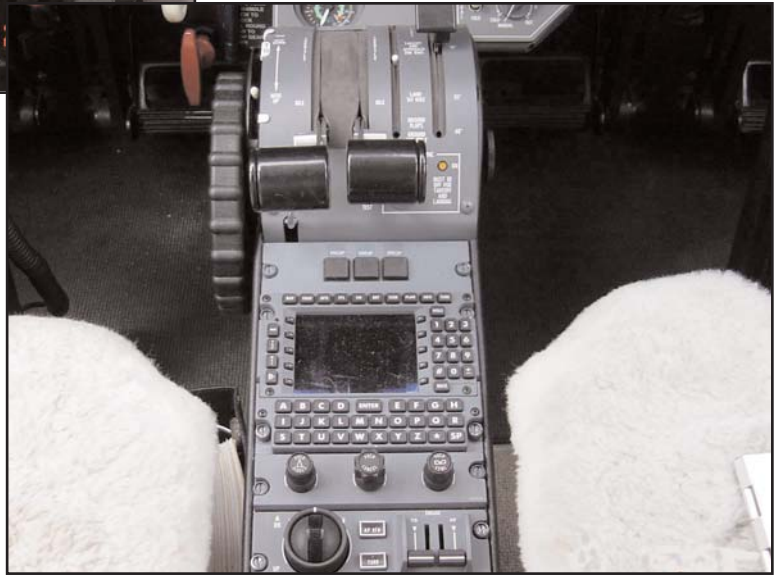

The plane has been upgraded with a deluxe refreshment center and aft-belted flushing toilet. The baggage compartment is fully carpeted to protect luggage and has been modified to accommodate snow skis.

State-of-the-art avionics enhance the safety of both pilots and passengers. A generously outfitted cockpit makes flying both intuitive and comfortable.

The plane is well-equipped with a 3-tube EFIS, GNS-XLS flight management system with a Garmin GPS backup, Goodrich Skywatch, and 8.33 KHz spacing.

## Aircraft Specifications:

### Avionics:

8.33 kHz. radios Allied Signal/Bendix King  
GNS-XLS Allied Signal  
Copilot's PFD - Third Collins Pro Line 21 display  
N1 Computer - safe flight
